

All information shown is for the Fund's Class S shares and is presented as of the date below unless otherwise stated.

RISK-MANAGED BALANCED FUND

6.30.2017

FUND OBJECTIVE & PRINCIPAL INVESTMENT STRATEGIES

The ICON Risk-Managed Balanced Fund seeks modest capital appreciation and income by normally investing no less than 25%, and up to 75%, of the market value of its assets, plus any borrowings for investment purposes, in debt securities traded in U.S. markets. To maintain a balance in debt and equity, the Fund will correspondingly invest no less than 25% and no more than 75% in equity securities traded in U.S. markets, including common stocks and preferred stocks of any market capitalization. To manage the risk of holding equity securities, the Fund may write call options or purchase put options on the securities or securities indexes. The Fund may also purchase exchange traded funds and other derivatives. The Fund may invest up to 10% of its net assets in non-investment grade U.S. dollar denominated bonds. The Fund will not change its principal investment strategy without providing shareholders at least 60 days' notice.

GROWTH OF \$10,000 INVESTMENT (5/6/04 - 6/30/17)

NET PERFORMANCE: \$17,491

A hypothetical \$10,000 investment in the ICON Risk-Managed Balanced Fund, Class S on 5/6/04 would have been worth \$17,491 on 6/30/17. The performance results reflect the deduction of management fees, brokerage commissions, and expenses and the reinvestment of dividends and other distributions made to client accounts. The data quoted represents past performance, which is no guarantee of future results.

*Not annualized. The data quoted represents past performance, which is no guarantee of future results. Investment return and principal value will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the data quoted. Please call 1-800-828-4881 or visit www.InvestwithICON.com for performance results current to the most recent month-end. Returns assume the reinvestment of dividends and capital gain distributions and reflect applicable fees and expenses. Performance without maximum sales charge does not include front-end or contingent deferred sales charges. Performance is for the Fund's Class S shares. Performance for the Fund's other share classes will vary due to differences in charges and expenses.

^bAs a percentage of total net assets.

*The advisor has agreed to limit certain Fund expenses; without these limitations, yield would have been lower. The limitation provisions may be terminated in the future. Fund holdings and composition are subject to change, based on market and other conditions, and should not be construed as a recommendation of any security, sector, or country.

IMPORTANT INFORMATION

There are risks involved with mutual fund investing, including the risk of loss of principal. There is no assurance that the investment process will consistently lead to successful results.

An investment concentrated in sectors and industries may involve greater risk and volatility than a more diversified investment. There are risks associated with small- and mid-cap investing such as less liquidity, limited product lines, and small market share.

ICON has contractually agreed to limit the total expenses of the Fund (excluding interest, taxes, brokerage, acquired fund fees and expenses and extraordinary expenses) to an annual rate for Class S of 1.20%. This expense limitation may be terminated at any time after January 31, 2021 upon 30 days' written notice of termination to the Fund's Board of Trustees. ICON is entitled to reimbursement from the Fund of any fees waived pursuant to this arrangement if such reimbursement does not cause the Fund to exceed existing expense limitations and the reimbursement is made within three years after the expenses were reimbursed or absorbed. Gross Expenses are all customary expenses incurred by a Fund, excluding, where applicable, waivers, reimbursements, and contractually agreed-to limits of the total expenses by the Fund's adviser. Net Expenses are all customary expenses incurred by a Fund, including, where applicable, waivers, reimbursements, and contractually agreed-to limits of the total expenses by the Fund adviser. **The Net Expense Ratio may exceed the contractually limited expenses because of interest, taxes, brokerage, acquired fund fees and expenses, and extraordinary expenses not waived by the Adviser.**

Performance and expense data shown is for Class S only. Data for other share classes will vary and is available at www.InvestwithICON.com.

The 30-Day SEC Yield is a calculation developed by the Securities and Exchange Commission that allows for standardized comparison of funds with similar portfolios. The annualized results are based upon the fund's net income, accrued expenses and the average daily number of shares outstanding during the period and are based on the maximum offering price per share on the last day of the period. Yield shown is for the Fund's Class S shares. Yield for the Fund's other share classes will vary due to differences in charges and expenses. Weighted average duration is the average time (in years) it takes for an investor to receive the present value of the future cash flows of a fixed income security, weighted by the allocation to each of the securities in a portfolio. The results are generally used to measure the sensitivity to interest rate changes. For example, a fund with a duration of four years would be expected to fall or rise about 4% in response to a one percentage point change in interest rates. Weighted average maturity is the average time (in years), weighted by the allocation to each of the securities in a portfolio, until the principal is returned. The figure is most commonly used as a measure of a fund's interest rate sensitivity. In general, the longer a fund's average maturity, the more significant will be the fund's price volatility in response to a change in interest rates. Likewise, the shorter a fund's average maturity, the less volatile a fund's price will be in relation to changes in interest rates.

The unmanaged **Bloomberg-Barclays Capital (LB) U.S. Universal Index** represents the union of the U.S. Aggregate Index, the U.S. High-Yield Corporate Index, the 144A Index, the Eurodollar Index, the Emerging Markets Index, the non-ERISA portion of the Commercial Mortgage-Backed Securities (CMBS) Index and the CMBS High-Yield Index. All securities in this market-value weighted index have at least one year remaining to maturity and meet certain minimum issue size criteria. The unmanaged **Bloomberg-Barclays Capital U.S. Universal Index (ex-MBS)** represents the **Bloomberg-Barclays Capital U.S. Universal Index** without including the CMBS Index and the CMBS High-Yield Index. Total returns for the unmanaged indexes include the reinvestment of dividends and capital gain distributions but do not reflect the costs of managing a mutual fund. The Fund's composition may differ significantly from the index. Individuals cannot invest directly in an index.

ICON's value-based investing model is an analytical, quantitative approach to investing that employs various factors, including projected earnings growth estimates, in an effort to determine whether securities are over- or underpriced relative to ICON's estimates of their intrinsic value. ICON's value approach involves forward-looking statements and assumptions based on judgments and projections that are not guarantees of future results. Value investing involves risks and uncertainties and does not guarantee better performance or lower costs than other investment methodologies.

The unmanaged **Standard & Poor's (S&P) Composite 1500 Index** is a broad-based, capitalization-weighted index comprising 500 large-cap, 400 mid-cap and 600 small-cap U.S. companies. Total returns for the unmanaged index include the reinvestment of dividends and capital gain distributions but do not reflect the costs of managing a mutual fund. The Fund's composition may differ significantly from the index. Individuals cannot invest directly in an index.
