

## Composites

### FIRM COMPOSITE DEFINITIONS

The following is a list of ICON's composites and the corresponding definition of each. Each client and/or financial adviser determines the investment vehicle; ICON groups accounts into composites based on the chosen investment. The determination of the appropriate composite for a client account is based on various factors including the client's investment objective (as noted on the client's management agreement).

#### *Domestic Allocation Portfolios (\$25k minimum investment)*

The **U.S. Growth Portfolio**, strives to increase the value of your account through a rise in the market price of securities or NAV of funds (capital appreciation) invested in U.S. sector, diversified, and bond mutual funds. Inception date was 1/1/93.

The **U.S. Moderate Portfolio**, strives to increase the value of your account through a rise in the market price of securities or NAV of funds (capital appreciation) and to a lesser extent, providing income from investment assets invested in U.S. sector, diversified, and bond mutual funds. The proportions of equity and fixed-income assets will vary through time, although ICON's Moderate Portfolio will generally invest a greater portion of assets in equity investments than ICON's Conservative Portfolio would.
